Spheres of the Earth/Bias in Science

1. I can name and briefly describe the four different spheres:
2. I can define the terms biotic and abiotic:
3. I can explain ways in which the biosphere and atmosphere might interact:
4. I can explain ways in which the atmosphere and biosphere might interact:
5. I can name one other interaction that can take place between spheres:
6. I can identify different types of bias that I need to watch for when I read about science issues in the news:
