An Introduction to ECOLOGY

1. I can differentiate between an abiotic and a biotic feature:
2. I can identify two main factors that determine the characteristics of each Biome on our earth:
3. I can identify the **biome** we live in and identify a characteristic:
4. I can name and identify a characteristic of **three other** biomes:
5. I can name, and describe, **two ways** that humans have influenced our biomes:
