Organic Chemistry
Lesson #3 NAMING MULTIPLE BOND STRUCTURES

Members of the HALOGEN FAMILY can also be added to organic compounds. Because Halogens have a combining capacity of _____ they form a single bond to attach itself to the compound.

RULES for naming attached halogens:

- 1.
- 2.
- 3.
- 4.
- 5.

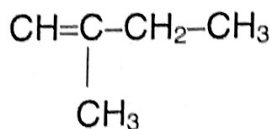

Example 1: Name the following

RULES FOR NAMING ORGANIC COMPOUNDS WITH MULTIPLE BONDS

- 1.
- 2.
- 3.
- 4.

Example 2: Name the following:
