

Shocking! It's a Picture Dictionary

For this assignment you will be creating a picture dictionary

...So, what do we do?

- We will be creating two “foldables” ... see my example ☺
 - 8-9 terms on each
- Write the term on the front of the flap
- Define each term in your own words
 - Feel free to use your phone or textbook (pg.248-264) but definitions **MUST** be in your own words
- Draw a small image to represent each of the words (on the back of the flap)
 - Picture should be related, and will help you to remember the word

Your terms to define are as follows

1. Static Charge
2. Friction
3. Static electricity
4. Electroscope
5. Van de Graaf Generator
6. Atom
7. Neutral
8. Insulator
9. Conductor
10. Coulomb (C)
11. Grounding
12. Action-at-a-distance forces
13. Charging by conduction
14. Charging by induction
15. Contact forces
16. Electric force
17. Laws of static Charge
